

TERGIT

Tergit is an all purpose liquid detergent for exterior aircraft cleaning. It can be applied by foam, spray or hand application. **Tergit** is also an excellent aviation all-purpose cleaner that can be used to clean thrust reversers, wheels, landing gear, and wheel wells.

ADVANTAGES

- Safe on all aircraft surfaces.
- Excellent hard water tolerance.
- Free rinsing.
- No flash point.
- Freeze thaw stable.
- Non-butylated.
- Does not contain citrus terpenes, phosphates, nor silicates.
- Can be sprayed-on or foamed-on.
- Approvals: Pratt & Whitney Canada (CPMC-79783), Air Canada (99904A1157).

TERGIT

DESCRIPTION

Tergit is a clear yellowish liquid solution of mild organic materials, water softening and wetting agents. It is odourless.

APPLICATIONS

Mixing Instructions:

Light-duty cleaning - mix 1 part of **Tergit** to 19 parts of tap water (5% solution).

Medium-duty cleaning - mix 1 part of **Tergit** to 9 parts of water (10% solution).

Heavy-duty cleaning - mix 1 part of **Tergit** to 1 part of water (50% solution), or use neat.

General use instructions:

The neat or diluted product can be applied through a **Foam & Clean** dispenser, mop or brush. Allow the solution to dwell for 5 to 10 minutes, agitate heavily soiled areas with a brush or mop. Rinse thoroughly with water. DO NOT allow solution to dry before rinsing as this will adversely affect rinsing.

TECHNICAL DATA

Appearance:	Clear yellowish liquid
Specific gravity at 15.5°C (60°F):	1.062
Flash point:	None
pH (100% solution):	10.9
Freeze thaw:	Stable

Consult the appropriate Material Safety Data Sheet.

STORAGE

Keep in warm area. If contents are frozen, storage in warm place will restore fluid to its original state without adverse effect on working quality.

GUARANTEE

Products sold are warranted to be free from defects in material and workmanship. Recommendations are made without warranty or guarantee since the conditions of use are beyond the manufacturer's control.
